

EcoVent

EXHAUST TREATMENT SYSTEM - FREQUENTLY ASKED QUESTIONS

FOR US RESTAURANTS - P/N #18004047

How much does the unit cost?

- List price is \$4850 per unit
- Every EcoVent installation requires high efficiency hood filters such as Franke Cascade filters.
- Installation kit must be purchased for each EcoVent unit. The list price for each kit varies depending on hose length from \$380 - \$750. Each kit includes required stainless steel flexible hose and connector devices.

How much maintenance is required?

- None. Unlike other grease and odor containment systems, no maintenance is required. Simply turn the unit on.

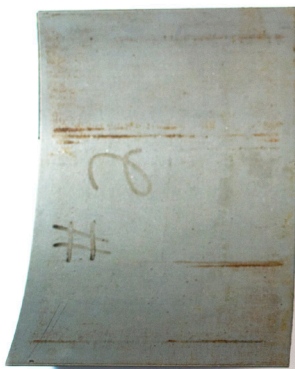

Does it really reduce grease and odors?

- Absolutely, and it has been proven in restaurants and through independent 3rd party laboratory testing. Approximate benefits - 65% Odor Reduction and 50% Grease Reduction in conjunction with a high-efficiency filter like the Franke Cascade filter.
- Below are the results of a 30-day exposure placed in a \$2.0M quick-serve restaurant. The 4"x6" galvanized steel panels were placed inside the exhaust duct within 24" of the exhaust fan.

Fryer Hood - 30 day exposure

Grill Hood - 30 day exposure

Without EcoVent

With EcoVent

Without EcoVent

What are the operating costs?

- Very low, as each unit is connected to a standard 120V outlet and only pulls 1.2 Amps. The UVC light bulb, key to effective operations, will last for approximately 10,000 hours, or 1-2 years (depending on hours of operation).
- Replacement bulbs are readily available and cost approximately \$400.

Who services these units?

- Depending upon the specific location, typically IKECA-member service agents will install units in new restaurants, utilizing the provided installation kit. Service should be minimal, but if required, will be handled locally through Franke certified hood and duct cleaning professionals such as IKECA service agents.

How can I find out more information?

- Contact Jonathan Hood at Franke at 615.462.4088 or mailto: jonathan.hood@franke.com
